

PACIFIC AVIATION DATABASE

PHOTOGRAPHS

Nominated Folder

You must tell the database where your photographs are stored on the home page. The default is C:\DataAir\Photos which you may change if you wish

Adding a Photograph

First make sure that your photograph is in your nominated folder.

The format must be jpg.

It doesn't really matter what you call it, but a suggestion may be use the registration as its name.

In this case we are going to add a photo to G-EUPJ. The photo named G-EUPJ is already in your photos folder. Any subsequent photos could be named G-EUPJ_2, etc

Navigate to the required aircraft in the database. In this example we can use the Current Reg search...

Double-click the 'Reg' to open the Aircraft Detail window...

Search Results - Click registration to preview, Double-click registration for full details

Reg	Type	C/N	Group Note	Based	Frames 1 Hex	Logged 1 Current Active
G-EUPJ	Airbus Industrie A319 131	1232	British Airways	Gatwick	400879	Stored <input checked="" type="checkbox"/> F R Edit

When the window opens, click 'Add Photo'

The Add Photo window will open...

Add a new photograph to the database

Add Photograph

Note: Your photographs must be stored in the folder you have specified on the home page. You may create subfolders in this folder.

ID: 14197 Photo No: 1

Registration: G-EUPJ

Where: []

When: []

Comment: []

ImageName: []

Close Close Without Saving

Insert the photo name here.
The system will add the file path and jpg extension

ID: The record ID of the aircraft. This cannot be changed.

Photo No: The photo sequence number assigned automatically and cannot be changed.

This is the first we have added to G-EUPJ so it is No 1

Where: Where the photo was taken (Optional)

When: When the photo was taken (Optional)

Comment: Any comment you wish to make (Optional)

ImageName: The name of the photo = G-EUPJ

(The system will add the file path and jpg extension automatically)

Close: Click to close the form and save the record

Close Without Saving Click if you change your mind

... Click 'Close'

Your photo will now be displayed...
